

Harris Fazal

Software Engineer | Frontend Developer

+91 9717506705 | beingharrisfazal@gmail.com | harris-fazal-a987705 | New Delhi

PROFILE

As a Frontend Developer, I specialize in crafting intuitive and visually appealing user interfaces. Proficient in technologies like React.js, I focus on creating responsive and engaging web applications to deliver a seamless user experience.

TECHNICAL SKILLS

Frontend Development : React.js, React Native, Redux Toolkit, JavaScript (ES6), Next.js, TypeScript, HTML, CSS

Tools & Technologies : Git, Figma, Postman, Bitbucket, RevenueCat, Jira, Auth0, Docker

UI Libraries : Bootstrap, Material UI, Ant Design

WORK EXPERIENCE

NeuroBridge.tech

Apr. 2024 – Present

Frontend Engineer

- Built dual-dashboard web platform (React, TypeScript, Redux Toolkit) with student performance tracking and teacher analytics; integrated Sentry and Mixpanel for production monitoring and shipped reusable component library with CI/CD-ready patterns
- Architected cross-platform AI educational app for Android/iOS (React Native/Expo) with **12+ language support**, OCR-based handwritten answer grading, SSE streaming chat, voice input/TTS, and offline persistence
- Integrated multi-gateway payments (Stripe, Google/Apple Pay, PayU) with RevenueCat subscription management and server-side webhook validation
- Developed Minsky Assistants platform with Auth0 authentication, Knowledge Base module, streaming chat with history, and embeddable chatbot widget

SabPaisa

Mar. 2022 – May 2023

Software Developer

New Delhi, India

- SabPaisa is a rapidly growing fin-tech company that developed the World's First API Driven Unified Payment Platform*
- Tech Stack**: JavaScript, React, Bootstrap, Redux Toolkit, Material UI
- COB Platform**: Led development of COB (Client On Boarding) platform, streamlining client onboarding workflows and building comprehensive dashboard for client-company communication
- KYC Integration**: Engineered KYC integration with API-driven data management using Redux Toolkit, ensuring seamless state management and optimized user experience
- Payout Security**: Contributed to Payout project by implementing critical security features including encryption/decryption workflows and OTP generation system, enhancing transactional security and integrity

SabPaisa

Nov. 2021 – Feb. 2022

Software Developer Intern

New Delhi, India

- Seamlessly transitioned into live project work following comprehensive KT and project familiarization, showcasing immediate productivity and adaptability
- Demonstrated proactive engagement and quick learning, contributing effectively to project tasks and deliverables from the outset, ensuring project success and client satisfaction

TechChefz

Apr. 2021 – Jul. 2021

React.js Intern

- Learned valuable insights and honed skills while working on two significant projects, DRI and Royal Enfield, leveraging React.js, gaining hands-on experience in frontend development and project execution methodologies

PROJECTS

- Chanakya Learning Platform** | *TypeScript, React, Redux Toolkit, Chart.js, Recharts, Sentry, Mixpanel*
- Built dual-dashboard web app (student performance tracking + teacher analytics) with real-time data visualizations; integrated Sentry and Mixpanel for production monitoring
 - Live: B2C Portal | B2B Portal
- Chanakya Mobile App** | *React Native/Expo, TypeScript, Redux Toolkit, RevenueCat, Stripe, PayU*
- Developed cross-platform AI educational app (Android/iOS) with **12+ language support**, OCR grading, SSE streaming chat, voice input/TTS, and multi-gateway payments (Stripe, Google/Apple Pay, PayU) with RevenueCat subscription management
 - Live: Web | Google Play
- COB (Client On Boarding) Platform** | *JavaScript, React, Bootstrap, Redux Toolkit, Material UI*
- Led development of client onboarding platform with KYC integration, API-driven data management via Redux Toolkit, and dashboard for client-company communication
 - Live: partner.sabpaisa.in

EDUCATION

Amity University <i>Master of Technology in Computer Science</i>	2024 – 2026 Noida
Manav Rachna Institute of Research And Technology <i>Bachelor of Computer Science, Engineering</i>	2017 – 2021 Faridabad
Delhi Global Institute of Technology <i>High School Diploma</i>	2015 – 2017 New Delhi
Delhi Public School, Vasant Kunj <i>School Education</i>	2001 – 2014 New Delhi
